

# What do I need?

Clean & empty glass jar

Glass paints

Paint brush

String/wool/twine

Scissors

Sellotape/hot glue

# What do I do?

Use your glass paints to paint your jar in the colours of the rainbow.

You can paint the colours in the same sequence as the rainbow - red, orange, yellow, green, blue, indigo and purple - or go freestyle! The choice is yours.

Once you've finished your painting leave the jar to dry. This should take around 2-3 hours.

Tie string around your jar using the instructions on page 2.

Hang your colourful jar in a nice sunny spot in your garden or in a window and watch as the sunlight shines rainbows through it.

# How to hang your 'sunbow' lantern

Step 1: Using hot glue or sellotape, attach a piece of string, wool or twine to either side of the top of your jar.

Step 2: Stick the end of another piece of long string around the rim of the jar holding it in place.

Step 3: Wrap the string around the rim of the jar several times, to help hold the handle in place.

Step 4: Tie or cut off the ends of the handle to make it look neat.
